Subject: Point Reyes National Seashore GMP Project, regarding cattle and dairy ranching lease agreements .
Attachments: Point Reyes National Seashore_GMP.pdf

Hi Doug,

I was told you might have an AG interest in this project. Unfortunately we have a very short turn around system because it got lost in the mail and we just got it.

That said the project is in Marin County for the Point Reyes National Seashore GMP Project.

This area specifically includes Tamales Bay and Lagunitas Creek and Walker Creek watersheds which have had water quality issues in the past.

Can you take a quick look and see if you have any comments/concerns or recommendations for the NPS?

This project is largely taking place due to concerns regarding cattle and dairy ranching lease agreements .

Unfortunately this did not get to me on time so I would need any info from you no later than COB Monday the 11/9/2017...

Thank you for your time,

James
